

Power BI Dashboard Assignment

HR Monthly Workforce Analytics

Business scenario: Management wants a simple two-page HR dashboard that summarizes workforce size, payroll, and employee performance using the Star Schema and DAX measures created in the previous assignment.

Dataset : same like #9 Task

Use the Measures You Already Created

Required existing measures

- Total Salary Paid
- Employee Headcount
- Average Performance Score
- Salary Paid - Previous Year
- Department Payroll % of Total

Dashboard Requirements

- Build exactly 2 report pages.
- Answer the 8 business questions below using 8 analytical visuals in total: 4 visuals on each page.
- Choose the visual that best answers each question. Use normal built-in visuals only, such as bar, column, line, donut/pie, treemap, or scatter. Avoid advanced custom visuals and combo charts.
- Add KPI cards using the existing measures. KPI cards are not counted as part of the 8 analytical visuals.
- Add slicers to both pages.
- Create navigation buttons so the user can move from Page 1 to Page 2 and back again.
- Use clear titles, consistent colors, proper alignment, and a clean professional layout.

Page 1 - Workforce Overview

- **Purpose:** Give management a quick view of workforce distribution and performance.
- **Suggested slicers:** Year and Job Level.
- **Recommended KPI cards:** Employee Headcount, Total Salary Paid, and Average Performance Score.
 - How many unique employees worked in each department during the selected period?
 - How are unique employees distributed by gender during the selected period?
 - Which departments have the highest average employee performance?
 - Which job roles had the highest unique employee headcount during the selected period?
 -

Page 2 - Dashboard

- **Purpose:** Analyze payroll over time and compare payroll and performance across departments.
- **Suggested slicers:** Year and Job Level.
- **Recommended KPI cards:** Total Salary Paid, Salary Paid - Previous Year, and Average Performance Score.
- **Note:** Previous-year comparisons are meaningful when analyzing 2025 because the dataset begins in 2024.

Business Questions

- How does total salary paid change month by month?
- Which departments have the highest total salary paid?
- What percentage of total company payroll is contributed by each department?
- Across departments, what is the relationship between total salary paid and average performance score?

Navigation Requirement

Required interaction

- Page 1 must contain a button that navigates to Page 2.
- Page 2 must contain a button that navigates back to Page 1.
- The buttons should be clearly labeled and placed consistently.

● Submission Checklist

- • 2 dashboard pages completed.
- • 8 business questions answered with 8 visuals.
- • KPI cards use the measures from the previous assignment.
- • Slicers work correctly on both pages.
- • Navigation buttons work in both directions.
- • All visuals have clear titles and readable labels.
- • The final report has a consistent and professional design.
